STATE WATER CONTROL BOARD ENFORCEMENT ACTION - ORDER BY CONSENT ISSUED TO

**Bob W. Robinson
For
Robinson's Chicken Farm
Virginia Pollutant Discharge Elimination System
Permit No. VAR10K314**

SECTION A: Purpose

This is a Consent Order issued under the authority of Va. Code §§ 62.1-44.15, 62.1-44.15:25, and 62.1-44.15:48, between the State Water Control Board and Bob W. Robinson, in his individual capacity as the permittee, owner and operator of Robinson's Chicken Farm, for the purpose of resolving certain violations of State Water Control Law and the applicable regulations.

SECTION B: Definitions

Unless the context clearly indicates otherwise, the following words and terms have the meaning assigned to them below:

1. "305(b) report" means the report required by Section 305(b) of the Clean Water Act (33 United States Code § 1315(b)), and Va. Code § 62.1-44.19:5 for providing Congress and the public an accurate and comprehensive assessment of the quality of State surface waters."
2. "2014 Permit" means the General VPDES Permit for Discharges of Stormwater from Construction Activities, No. VAR10, promulgated at 9 VAC 25-880-70, which was issued under the State Water Control Law, the VSMP Regulations, and the General Permit Regulation on July 1, 2014 and which expires on June 30, 2019.

3. "Board" means the State Water Control Board, a permanent citizens' board of the Commonwealth of Virginia, as described in Va. Code §§ 10.1-1184 and 62.1-44.7.
4. "Bob W. Robinson" is an individual permittee, owner and operator of Robinson's Chicken Farm (hereinafter collectively referred to as "Robinson"). Robinson is a "person" within the meaning of Va. Code § 62.1-44.3.
5. "Construction activity" means any clearing, grading or excavation resulting in land disturbance of equal to or greater than one acre, or disturbance of less than one acre of total land area that is part of a larger common plan of development or sale if the larger common plan will ultimately disturb equal to or greater than one acre.
6. "Department" or "DEQ" means the Department of Environmental Quality, an agency of the Commonwealth of Virginia, as described in Va. Code § 10.1-1183.
7. "Director" means the Director of the Department of Environmental Quality, as described in Va. Code § 10.1-1185.
8. "Discharge" means, when used without qualification, a discharge of a pollutant, or any addition of a pollutant or combination of pollutants, to state waters or waters of the contiguous zone or ocean other than a discharge from a vessel or other floating craft when being used as a means of transportation.
9. "General Permit Regulation" means the General VPDES Permit for Discharges of Stormwater from Construction Activities, 9 VAC 25-880-1 et seq.
10. "Land disturbance" or "land-disturbing activity" means a man-made change to the land surface that potentially changes its runoff characteristics including clearing, grading, or excavation, except that the term shall not include those exemptions specified in Va. Code § 62.1-44.15:34.
11. "Notice of Violation" or "NOV" means a type of Notice of Alleged Violation under Va. Code § 62.1-44.15.
12. "Order" means this document, also known as a "Consent Order" or "Order by Consent," a type of Special Order under the State Water Control Law.
13. "Pollutant" means any substance, radioactive material, or heat which causes or contributes to, or may cause or contribute to pollution. 9 VAC 25-210-10.
14. "Pollution" means such alteration of the physical, chemical or biological properties of any state waters as will or is likely to create a nuisance or render such waters: (i) harmful or detrimental or injurious to the public health, safety or welfare, or to the health of animals, fish or aquatic life; (ii) unsuitable with reasonable treatment for use as present or possible future sources of public water supply; or (iii) unsuitable for recreational,

commercial, industrial, agricultural, or other reasonable uses; provided that (a) an alteration of the physical, chemical, or biological property of state waters, or a discharge or deposit of sewage, industrial wastes or other wastes to state waters by any owner which by itself is not sufficient to cause pollution, but which, in combination with such alteration of or discharge or deposit to state waters by other owners is sufficient to cause pollution; (b) the discharge of untreated sewage by any owner into state waters; and (c) contributing to the contravention of standards of water quality duly established by the board, are "pollution." Va. Code § 62.1-44.3; 9 VAC 25-210-10.

15. "Property" or "Site" means the tract of land in Cumberland County, Virginia at 121 Taylor Lane, Cartersville, Virginia from which discharges of stormwater associated with construction activity occur.
16. "PRO" means the Piedmont Regional Office of DEQ, located in Glen Allen, Virginia.
17. "Registration Statement" means a registration statement for coverage under the 2014 Permit.
18. "State Water Control Law" means Chapter 3.1 (§ 62.1-44.2 *et seq.*) of Title 62.1 of the Va. Code.
19. "State waters" means all water, on the surface and under the ground, wholly or partially within or bordering the Commonwealth or within its jurisdiction, including wetlands. Va. Code § 62.1-44.3 and 9 VAC 25-210-10.
20. "Stormwater" means precipitation that is discharged across the land surface or through conveyances to one or more waterways and that may include stormwater runoff, snow melt runoff, and surface runoff and drainage. Va. Code § 62.1-44.15:24.
21. "Stormwater management plan" means a document or series of documents containing material describing methods for complying with the requirements of a VSMP or the VSMP Regulations. 9 VAC 25-870-10.
22. "SWPPP" means Stormwater Pollution Prevention Plan, which is a document that is prepared in accordance with good engineering practices and that identifies potential sources of pollutants that may reasonably be expected to affect the quality of stormwater discharges. A SWPPP required under a VSMP for construction activities shall identify and require the implementation of control measures, and shall include, but not be limited to the inclusion of, or the incorporation by reference of an approved erosion and sediment control plan, an approved stormwater management plan, and a pollution prevention plan. 9 VAC 25-870-10.
23. "Virginia Stormwater Management Act" means Article 2.3 (§ 62.1-44.15:24 *et seq.*) of Chapter 3.1 of Title 62.1 of the Va. Code.

24. "Va. Code" means the Code of Virginia (1950), as amended.
25. "VAC" means the Virginia Administrative Code.
26. "VESCP" or "Virginia Erosion and Sediment Control Program" means a program approved by the Board that has been established by a VESCP authority for the effective control of soil erosion, sediment deposition, and nonagricultural runoff associated with a land-disturbing activity to prevent the unreasonable degradation of properties, stream channels, waters, and other natural resources and shall include such items where applicable as local ordinances, rules, permit requirements, annual standards and specifications, policies and guidelines, technical materials, and requirements for plan review, inspection, and enforcement where authorized. Va. Code § 62.1-44.15:51.
27. "VESCP authority" means an authority approved by the Board to operate a Virginia Erosion and Sediment Control Program. An authority may include a state entity, including the Department; a federal entity; a district, county, city, or town; or for linear projects subject to annual standards and specifications, electric, natural gas, and telephone utility companies, interstate and intrastate natural gas pipeline companies, railroad companies, or authorities created pursuant to § 62.1-44.15.2-5102. Va. Code § 62.1-44.15:51.
28. "Virginia Stormwater Management Act" means Article 2.3 (§ 62.1-44.15:24 et seq.) of Chapter 3.1 of Title 62.1 of the Va. Code.
29. "VPDES" means Virginia Pollutant Discharge Elimination System.
30. "VSMP" means the Virginia Stormwater Management Program, which is a program approved by the Soil and Water Conservation Board after September 13, 2011, and until June 30, 2013, or the State Water Control Board on and after June 30, 2013, that has been established by a VSMP authority to manage the quality and quantity of runoff resulting from land-disturbing activities and shall include such items as local ordinances, rules, permit requirements, annual standards and specifications, policies and guidelines, technical materials, and requirements for plan review, inspection, enforcement, where authorized in this article, and evaluation consistent with the requirements of this article and associated regulations. Va. Code § 62.1-44.15:24.
31. "VSMP authority" means an authority approved by the Board after September 13, 2011, to operate a VSMP or, until such approval is given, the Department. An authority may include a locality; state entity, including the Department; federal entity; or for linear projects subject annual standards and specifications in accordance with subsection B of § 62.1-44.15-31, electric, natural gas, and telephone utility companies, interstate and intrastate natural gas pipeline companies, railroad companies, or authorities created pursuant to § 15.2-5102. Va. Code § 62.1-44.15:24.

32. “VSMP Regulations” means the Virginia Stormwater Management Program (VSMP) Regulations, 9 VAC 25-870-10 *et seq.*

SECTION C: Findings of Fact and Conclusions of Law

33. Robinson is the owner and operator of the Property located at 121 Taylor Lane, Cartersville, Virginia, from which stormwater associated with construction activity is discharged.

34. DEQ is the VSMP authority for the Property.

35. The receiving water is an un-named tributary of Willis River in the James River Basin (Middle). During the 2016 305(b)/303(d) Water Quality Assessment, the un-named tributary was not assessed for any designated use and is considered a Category 3A waterbody. The Site is located within the watershed study area for the Willis River Bacterial Total Maximum Daily Load (“TMDL”). It is also located in the Chesapeake Bay watershed. The Chesapeake Bay TMDL allocates loads for total nitrogen, total phosphorus, and total suspended solids. The receiving stream is intermittent and considered a Tier 1 water.

36. The un-named tributary and subject area of Willis River are surface waters located within the Commonwealth and are “state waters” under the State Water Control Law.

37. On January 18, 2018, DEQ granted coverage to Robinson under the 2014 Permit, and assigned him registration No. VAR10K314. The 2014 Permit allows Robinson to discharge stormwater associated with construction activities at the Site to surface waters within the Commonwealth, in strict compliance with the terms and conditions of the permit. On October 10, 2018, DEQ staff conducted an inspection of the Site.

38. During the October 10, 2018 inspection, the SWPPP did not include an approved Stormwater Management Plan and the Pollution Prevention Plan was incomplete. In addition, the SWPPP did not adequately describe the location of pollutant-generating activities and appropriate pollution control practices and procedures.

9 VAC 25-870-54(C) states: “A stormwater management plan consistent with the requirements of the Virginia Stormwater Management Act and regulations must be designed and implemented during construction activities. Prior to land disturbance, this plan must be approved by the VSMP authority.”

9 VAC 25-870-54(D) states: “A pollution prevention plan that identifies potential sources of pollutants that may reasonably be expected to affect the quality of stormwater discharges from the construction site and describe control measures that will be used to minimize pollutants in stormwater discharges from the construction site must be developed before land disturbance commences.

Permit Part II(A)(3)(a) states: “a. New construction activities. A stormwater management plan approved by the VSMP authority as authorized under the Virginia Stormwater Management Program (VSMP) Regulation (9VAC25-870), or an "agreement in lieu of a stormwater management plan" as defined in 9VAC25-870-10 from the VSMP authority, or a stormwater management plan prepared in accordance with annual standards and specifications approved by the department. Any operator proposing a new stormwater discharge from construction activities that is not required to obtain stormwater management plan approval from a VSMP authority or does not adopt department-approved annual standards and specifications shall submit the stormwater management plan to the department for review and approval.”

Permit Part II(A)(4) states: “Pollution prevention plan. A pollution prevention plan that addresses potential pollutant-generating activities that may reasonably be expected to affect the quality of stormwater discharges from the construction activity, including any support activity. The pollution prevention plan shall: (a) Identify the potential pollutant-generating activities and the pollutant that is expected to be exposed to stormwater; (b) Describe the location where the potential pollutant-generating activities will occur, or if identified on the site plan, reference the site plan; [and] . . . (e) Describe the pollution prevention practices and procedures that will be implemented . . .”

39. During the October 10, 2018 inspection, DEQ staff observed that amendments, modifications and updates to the SWPPP were not adequately recorded, including dates of major grading activities, cessation of construction activities, and dates that stabilization measures were initiated. In addition, contractors responsible for implementing and maintaining each control measure identified in the SWPPP were not identified.

9 VAC 25-870-54(G) states in part: “The SWPPP shall be amended whenever there is a change in design, construction, operation, or maintenance that has a significant effect on the discharge of pollutants to state waters and that has not been previously addressed in the SWPPP. ”

Permit Part II(B)(1) states: “The operator shall amend the SWPPP whenever there is a change in the design, construction, operation, or maintenance that has a significant effect on the discharge of pollutants to surface waters and that has not been previously addressed in the SWPPP.”

Permit Part II(B)(3) states: “The SWPPP must clearly identify the contractor(s) that will implement and maintain each control measure identified in the SWPPP. The SWPPP shall be amended to identify any new contractor that will implement and maintain a control measure.”

Permit Part II(B)(4) states: “ . . . All modifications or updates to the SWPPP shall be noted and shall include the following items: (a). A record of dates when: (1) Major grading activities occur; (2) Construction activities temporarily or permanently cease on a portion of the site; and (3) Stabilization measures are initiated . . . ”

40. During the October 10, 2018 inspection, DEQ staff observed that inspections were not performed at a minimum frequency and corrective action was not implemented when required.

Permit Part I(B)(4)(d)(1) states: "Inspections shall be conducted at a frequency of: (1) At least once every four business days; or (2) At least once every five business days and no later than 48 hours following a measurable storm event. In the event that a measurable storm event occurs when there are more than 48 hours between business days, the inspection shall be conducted no later than the next business day."

Permit Part II(G)(1), states: "The operator shall implement the corrective action(s) identified as a result of an inspection as soon as practicable but no later than seven days after discovery or a longer period as approved by the VSMP authority. If approval of a corrective action by a regulatory authority (e.g., VSMP authority, VESCP authority, or the department) is necessary, additional control measures shall be implemented to minimize pollutants in stormwater discharges until such approvals can be obtained."

Permit Part II(E)(1) & (2) states: "1. All control measures must be properly maintained in effective operating condition in accordance with good engineering practices and, where applicable, manufacturer specifications. If a site inspection required by Part II F identifies a control measure that is not operating effectively, corrective action(s) shall be completed as soon as practicable, but no later than seven days after discovery or a longer period as established by the VSMP authority, to maintain the continued effectiveness of the control measures. 2. If site inspections required by Part II F identify an existing control measure that needs to be modified or if an additional control measure is necessary for any reason, implementation shall be completed prior to the next anticipated measurable storm event. If implementation prior to the next anticipated measurable storm event is impracticable, then alternative control measures shall be implemented as soon as practicable, but no later than seven days after discovery or a longer period as established by the VSMP authority."

Permit Part II(F)(2) states: "a. Inspections shall be conducted at a frequency of: (1) At least once every five business days; or (2) At least once every 10 business days and no later than 48 hours following a measurable storm event. In the event that a measurable storm event occurs when there are more than 48 hours between business days, the inspection shall be conducted no later than the next business day."

41. During the October 10, 2018 inspection, stormwater control measures were not maintained consistent with good engineering practices, including adequate sediment clean-out of basin drainage pipes, stabilization of basin slopes, adequate stormwater drainage from roof system run-off, inlet/outlet piping protection and clean-out, and silt fencing clean-out.

9 VAC 25-840-40(1) states: "Permanent or temporary soil stabilization shall be applied to denuded areas within seven days after final grade is reached on any portion of the site. Temporary soil stabilization shall be applied within seven days to denuded areas that may

not be at final grade but will remain dormant for longer than 14 days. Permanent stabilization shall be applied to areas that are to be left dormant for more than one year.”

9 VAC 25-840-40(5) states: “Stabilization measures shall be applied to earthen structures such as dams, dikes and diversions immediately after installation.”

9 VAC 25-840-40(10) states: “All storm sewer inlets that are made operable during construction shall be protected so that sediment-laden water cannot enter the conveyance system without first being filtered or otherwise treated to remove sediment.”

9 VAC 25-840-40(11) states: “Before newly constructed stormwater conveyance channels or pipes are made operational, adequate outlet protection and any required temporary or permanent channel lining shall be installed in both the conveyance channel and receiving channel.”

9 VAC 25-870-54(B) states in part: “An erosion and sediment control plan consistent with the requirements of the Virginia Erosion and Sediment Control Law and regulations must be designed and implemented during construction activities.”

9 VAC 25-840-60(A) states: “All erosion and sediment control structures and systems shall be maintained, inspected and repaired as needed to insure continued performance of their intended function. A statement describing the maintenance responsibilities of the permittee shall be included in the approved erosion and sediment control plan.”

Permit Part II(A)(2)(c)(8) states: “A properly implemented erosion and sediment control plan . . . ensures that stabilization of disturbed areas will be initiated immediately whenever any clearing, grading, excavating, or other land-disturbing activities have been permanently ceased on any portion of the site, or temporarily ceased on any portion of the site and will not resume for a period exceeding 14 days.”

Permit Part II(A)(5)(b)(1) states: “Permanent or temporary soil stabilization shall be applied to denuded areas within seven days after final grade is reached on any portion of the site.”

Permit Part II(E)(1) states in part: “1. All control measures must be properly maintained in effective operating condition in accordance with good engineering practices and, where applicable, manufacturer specifications . . . to maintain the continued effectiveness of the control measures.”

42. During the October 10, 2018 inspection, a spill kit was not observed at the Site. In addition drilling fluid mixed with sediment was leaching from the well casing of a recently drilled monitoring well.

9 VAC 25-870-56 states in part: “A plan for implementing pollution prevention measures during construction activities shall be developed, implemented, and updated as necessary. The pollution prevention plan shall detail the design, installation, implementation, and

maintenance of effective pollution prevention measures as specified in 40 CFR 450.21(d) to minimize the discharge of pollutants. At a minimum, such measures must be designed, installed, implemented, and maintained to . . . Minimize the discharge of pollutants from spills and leaks and implement chemical spill and leak prevention and response procedures.”

Permit Part II(A)(4)(e)(1)-(3) & (6)-(7) state in part: “The pollution prevention plan shall . . . Prevent and respond to leaks, spills, and other releases including (i) procedures for expeditiously stopping, containing, and cleaning up spills, leaks, and other releases; and (ii) procedures for reporting leaks, spills, and other releases in accordance with Part III G; (2) Prevent the discharge of spilled and leaked fuels and chemicals from vehicle fueling and maintenance activities (e.g., providing secondary containment such as spill berms, decks, spill containment pallets, providing cover where appropriate, and having spill kits readily available); (3) Prevent the discharge of soaps, solvents, detergents, and wash water from construction materials, including the clean-up of stucco, paint, form release oils, and curing compounds (e.g., providing (i) cover (e.g., plastic sheeting or temporary roofs) to prevent contact with stormwater; (ii) collection and proper disposal in a manner to prevent contact with stormwater; and (iii) a similarly effective means designed to prevent discharge of these pollutants); . . . (6) Minimize the discharge of pollutants from storage, handling, and disposal of construction products, materials, and wastes including (i) building products such as asphalt sealants, copper flashing, roofing materials, adhesives, and concrete admixtures; (ii) pesticides, herbicides, insecticides, fertilizers, and landscape materials; and (iii) construction and domestic wastes such as packaging materials, scrap construction materials, masonry products, timber, pipe and electrical cuttings, plastics, Styrofoam, concrete, and other trash or building materials; (7) Prevent the discharge of fuels, oils, and other petroleum products, hazardous or toxic wastes, and sanitary wastes . . .”

43. On December 12, 2018, the Department issued NOV No. 2018-10-PRO-202 to Robinson citing the violations observed during the October 10, 2018 site inspection.
44. Department staff met with Robinson on the Site on January 24, 2019 to discuss the NOV and the issuance of a Consent Order. Staff also conducted a compliance evaluation and determined that Robinson completed corrective action of each violation identified in the NOV.
45. Based on the results of the October 10, 2018 Site inspection, and the January 24, 2018 meeting, the Board concludes that Robinson violated Va. Code § 62.1-44.15:34(A); Va. Code § 62.1-44.15.55 and 9 VAC 25-870-54(B), (C), (D), (G); and 9 VAC 25-840-40(1), (5), (10), (11); 9 VAC 25-840-56; 9 VAC 25-840-60(A); and the 2014 Permit requirements as described above.

SECTION D: Agreement and Order

Accordingly, by virtue of the authority granted it in Va. Code §§ 62.1-44.15, the Board orders Robinson and Robinson agrees to pay a civil charge of **\$6,312** within 30 days of the effective date of the Order in settlement of the violations cited in this Order.

Payment shall be made by check, certified check, money order or cashier's check payable to the "Treasurer of Virginia," and delivered to:

Receipts Control
Department of Environmental Quality
Post Office Box 1104
Richmond, Virginia 23218

Robinson shall indicate that the payment is being made in accordance with the requirements of this Order for deposit into the Virginia Stormwater Management Fund. If the Department has to refer collection of moneys due under this Order to the Department of Law, Robinson shall be liable for attorneys' fees of 30% of the amount outstanding.

SECTION E: Administrative Provisions

1. The Board may modify, rewrite, or amend this Order with the consent of Robinson for good cause shown by Robinson, or on its own motion pursuant to the Administrative Process Act, Va. Code § 2.2-4000 *et seq.*, after notice and opportunity to be heard.
2. This Order addresses and resolves only those violations specifically identified in Section C of this Order. This Order shall not preclude the Board or the Director from taking any action authorized by law, including but not limited to: (1) taking any action authorized by law regarding any additional, subsequent, or subsequently discovered violations; (2) seeking subsequent remediation of the facility; or (3) taking subsequent action to enforce the Order.
3. For purposes of this Order and subsequent actions with respect to this Order only, Robinson admits the jurisdictional allegations, findings of fact, and conclusions of law contained herein.
4. Robinson consents to venue in the Circuit Court of the City of Richmond for any civil action taken to enforce the terms of this Order.
5. Robinson declares he has received fair and due process under the Administrative Process Act and the State Water Control Law and he waives the right to any hearing or other administrative proceeding authorized or required by law or regulation, and to any judicial review of any issue of fact or law contained herein. Nothing herein shall be construed as a waiver of the right to any administrative proceeding for, or to judicial review of, any action taken by the Board to modify, rewrite, amend, or enforce this Order.

6. Failure by Robinson to comply with any of the terms of this Order shall constitute a violation of an order of the Board. Nothing herein shall waive the initiation of appropriate enforcement actions or the issuance of additional orders as appropriate by the Board or the Director as a result of such violations. Nothing herein shall affect appropriate enforcement actions by any other federal, state, or local regulatory authority.
7. If any provision of this Order is found to be unenforceable for any reason, the remainder of the Order shall remain in full force and effect.
8. Robinson shall be responsible for failure to comply with any of the terms and conditions of this Order unless compliance is made impossible by earthquake, flood, other acts of God, war, strike, or such other unforeseeable circumstances beyond his control and not due to a lack of good faith or diligence on his part. Robinson shall demonstrate that such circumstances were beyond his control and not due to a lack of good faith or diligence on his part. Robinson shall notify the DEQ Regional Director verbally within 24 hours and in writing within three business days when circumstances are anticipated to occur, are occurring, or have occurred that may delay compliance or cause noncompliance with any requirement of the Order. Such notice shall set forth:
 - a. the reasons for the delay or noncompliance;
 - b. the projected duration of any such delay or noncompliance;
 - c. the measures taken and to be taken to prevent or minimize such delay or noncompliance; and
 - d. the timetable by which such measures will be implemented and the date full compliance will be achieved.

Failure to so notify the Regional Director verbally within 24 hours and in writing within three business days, of learning of any condition above, which the parties intend to assert will result in the impossibility of compliance, shall constitute a waiver of any claim to inability to comply with a requirement of this Order.

9. This Order is binding on the parties hereto and any successors in interest, designees and assigns, jointly and severally.
10. This Order shall become effective upon execution by both the Director or his designee and Robinson. Nevertheless, Robinson agrees to be bound by any compliance date which precedes the effective date of this Order.
11. This Order shall continue in effect until:
 - a. The Director or his designee terminates the Order after Robinson has completed all of the requirements of the Order;

- b. Robinson petitions the Director or his designee to terminate the Order after he has completed all of the requirements of the Order and the Director or his designee approves the termination of the Order; or
- c. The Director or Board terminates the Order in his or its sole discretion upon 30 days' written notice to Robinson.

Termination of this Order, or any obligation imposed in this Order, shall not operate to relieve Robinson from his obligation to comply with any statute, regulation, permit condition, other order, certificate, certification, standard, or requirement otherwise applicable.

- 12. Any plans, reports, schedules or specifications attached hereto or submitted by Robinson and approved by the Department pursuant to this Order are incorporated into this Order. Any non-compliance with such approved documents shall be considered a violation of this Order.
- 13. Any documents to be submitted pursuant to this Order shall be submitted by Robinson or an authorized representative of Robinson
- 14. This Order constitutes the entire agreement and understanding of the parties concerning settlement of the violations identified in Section C of this Order, and there are no representations, warranties, covenants, terms or conditions agreed upon between the parties other than those expressed in this Order.
- 15. By his signature below, Robinson voluntarily agrees to the issuance of this Order.

And it is so ORDERED this _____ day of _____, 2018.

James J. Golden, Regional Director
Virginia Department of Environmental Quality
Piedmont Regional Office
